

Utilizing EPIC “My Reports” to Collect MDPQC Hemorrhage Data

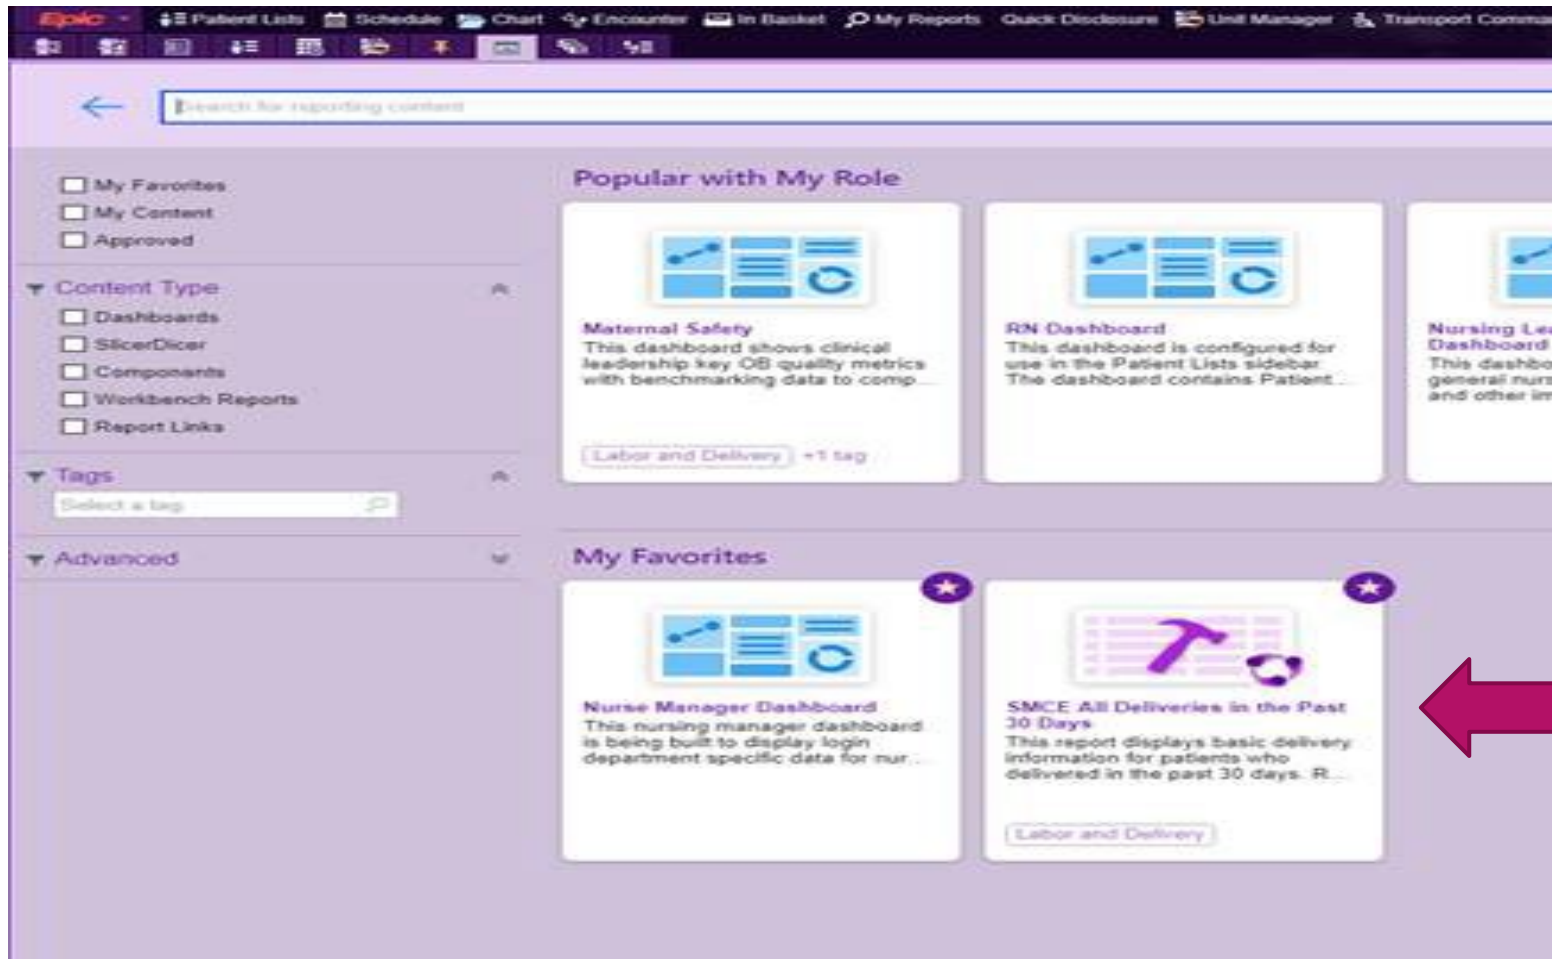

ERIN WEISHAAR, MSN, RN

JAIMI HALL, MSN, RNC-OB, C-EFM

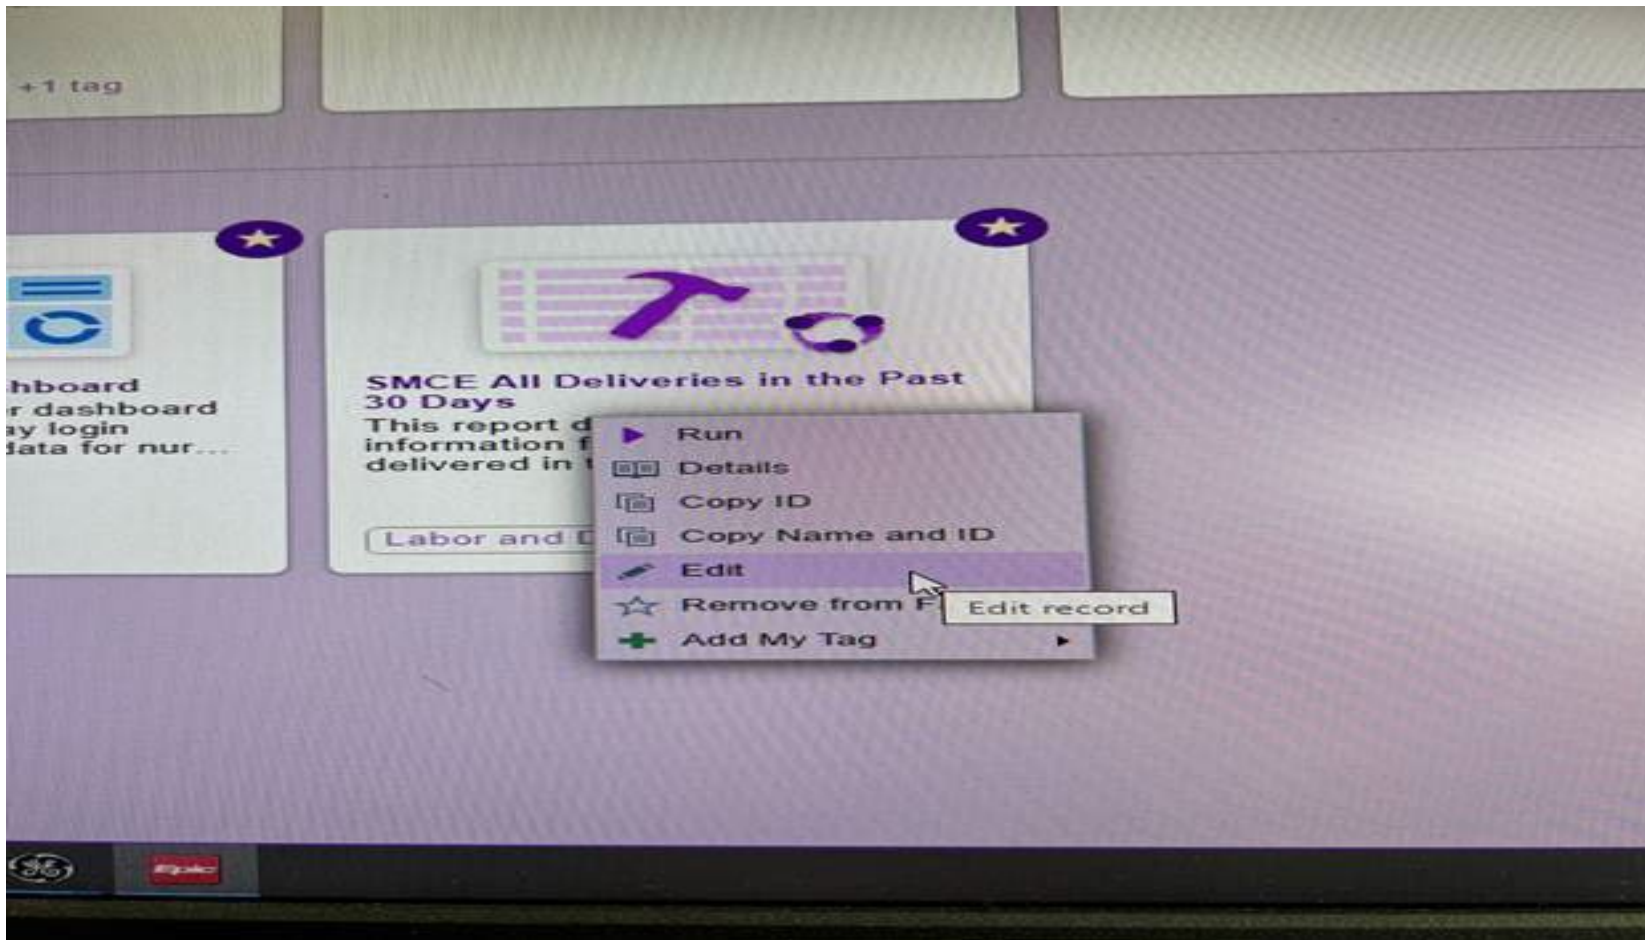

UNIVERSITY OF MARYLAND SHORE REGIONAL HEALTH

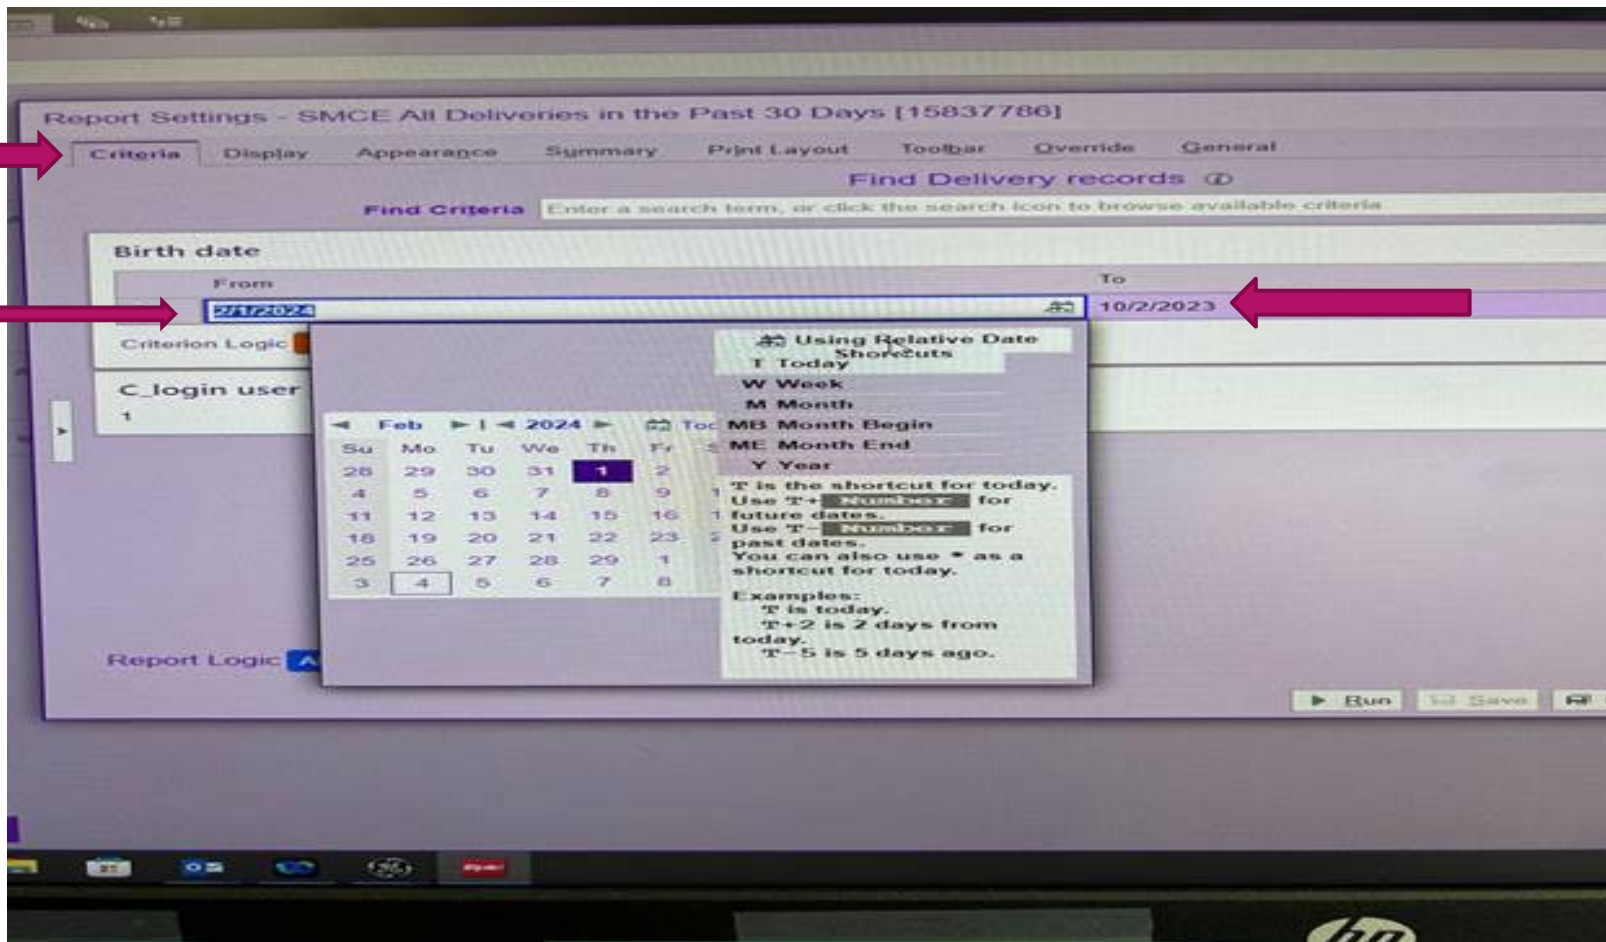

- Utilize reporting tools already available to you
- Can extract process measures on hemorrhage risk assessment, QBL, race/ethnicity
- From home screen, click on EPIC button in top left corner, then click My Reports

- You will use the “All Deliveries in the Past 30 Days” report

- On the “All Deliveries in the Past 30 Days” report, right click and select Edit

- At the top left under Criteria tab, change the dates to the desired timeframe

Using Relative Date Shortcuts

- T Today
- W Week
- M Month
- MB Month Begin
- ME Month End
- Y Year

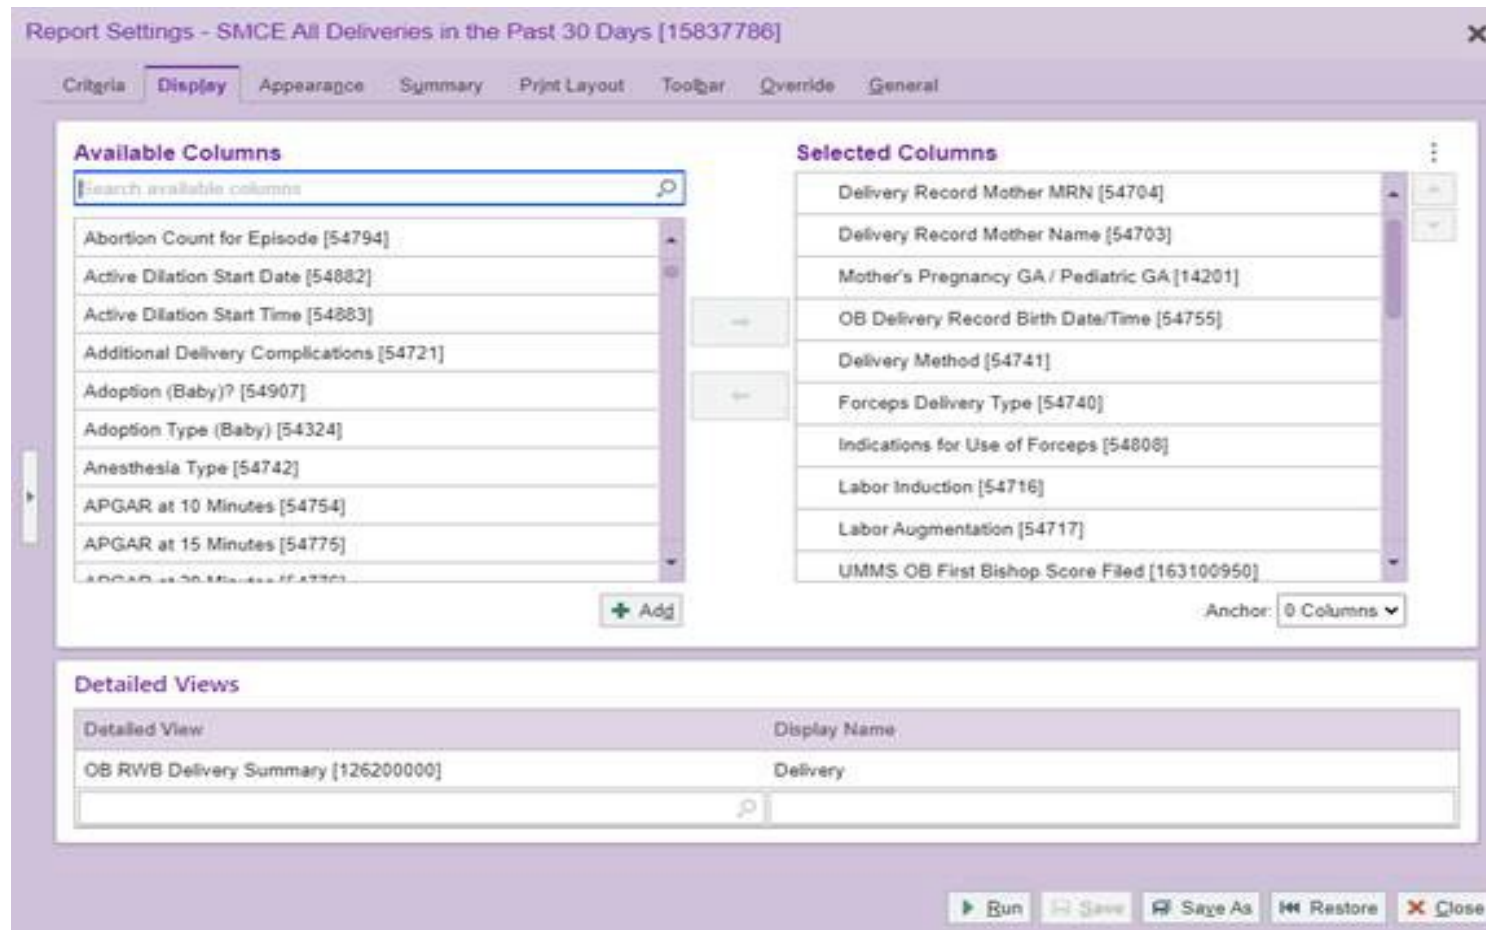

T is the shortcut for today.
Use T+ **Number** for future dates.
Use T- **Number** for past dates.
You can also use * as a shortcut for today.

Examples:
T is today.
T+2 is 2 days from today.
T-5 is 5 days ago.

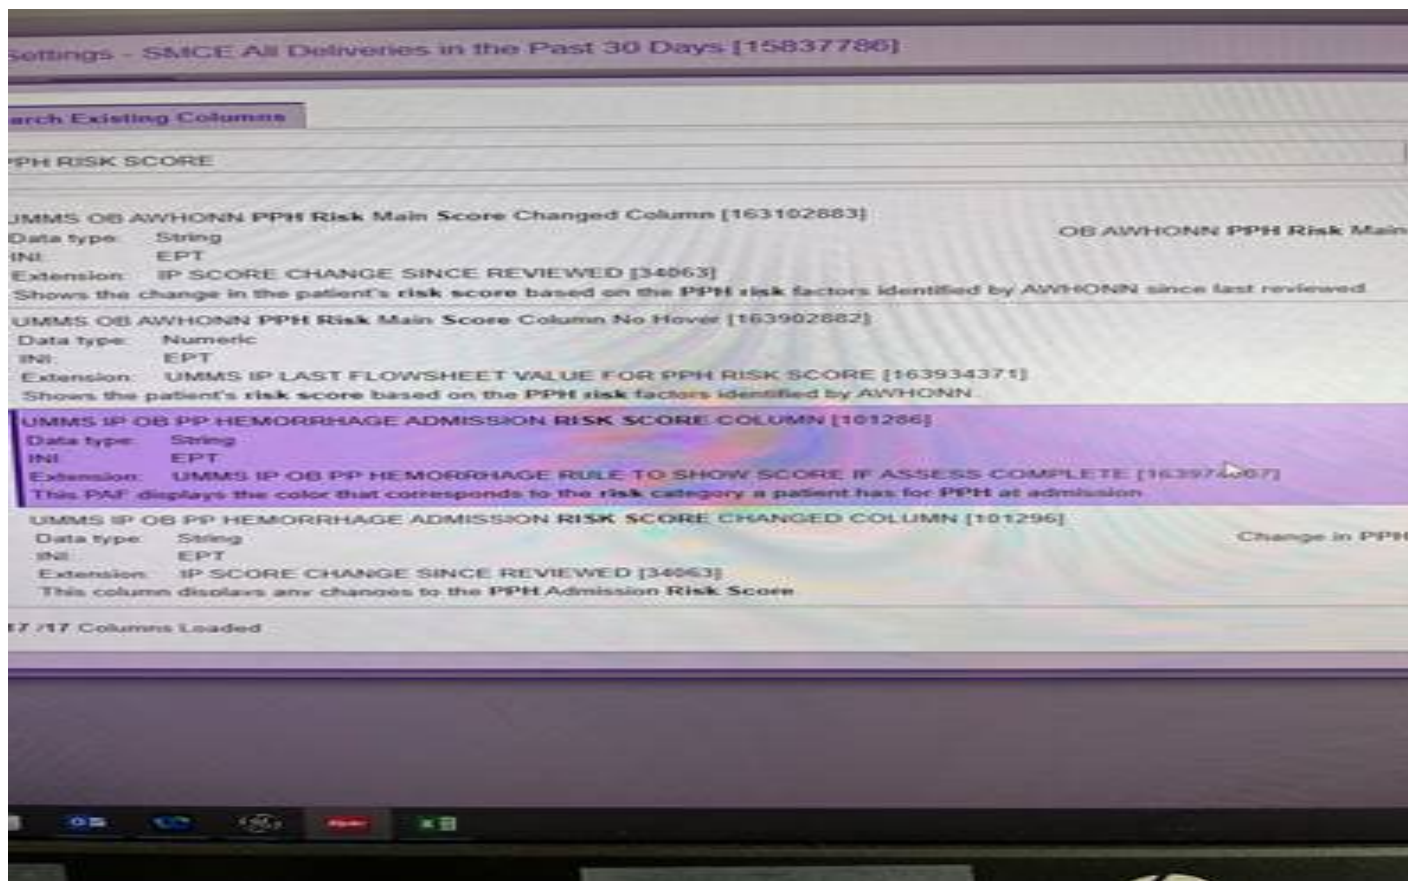

Su	Mo	Tu	We	Th	Fr	Sa	Su
28	29	30	31	1	2	3	4
4	5	6	7	8	9	10	11
11	12	13	14	15	16	17	18
18	19	20	21	22	23	24	25
25	26	27	28	29	1	2	3
3	4	5	6	7	8	9	10

White	Not Hispanic or Latino [102]	Vaginal, Spontaneous	●		220	

- Report will look similar to this, depending on data you've added
- All EBL is captured under "Blood Loss" when QBL was NOT performed
- Hover over PPH risk color to see actual score
- You can then filter the report for race and ethnicity data

Thank You!
